Stone Polish

Description:

Special cleaning agents and waxes in Stone Polish eliminates water spots, fingerprints, dirt, grease, oil and other superficial blemishes without damaging the color and finish of polished natural stone. Stone surfaces will look as brilliant as the day they were installed. Non-abrasive, quick drying and clean smelling. VOC compliant.

Technical Characteristics:

Appearance	creamy
Color	white
Odor	characteristic
Specific gravity at 20°C	0,84±0,02
Hydro-solubility	soluble at every ratio
PH	n.a.
Biodegradability	
Shelf life at 20° C (68° F)	

Instruction for Use:

Product must be sprayed on the surface to be treated, spreaded with a soft and dried cloth then lightly rubbed. If the surface is very porous and rough, we suggest to use our "Special Preparation For Polishing".

Suggestion for Use:

For the daily maintenance of polished granite and marble countertops, vanities, tabletops, fireplace mantles, statuaries, etc. Spray on and wipe off with a lint free cloth, buffing slightly. Stone Polish will bring out the natural luster of all stone, while adding extra protection to the surface.

Application on surfaces:

Marble, granite, stones.

Safety procedures:

As far as the proper working procedures is concerned, we recommend to consult Material Safety Data Sheets issued according to E.U. rules and to follow your national laws concerning safety in the working place.

Packing:

Cardboards of 20 bombs of ml 400.

Our packing is conformed as per U.N. rules for inland transport (A.D.R.) and by sea (I.M.O.) for transportation via air refer to updated rules (I.A.T.A.). For further information regarding transport please check MSDS.
